

Proud Commercial USA & AHSG Member Project Spotlights:

FLOOR-TEX COMMERCIAL FLOORING

Floor-Tex Commercial Flooring, with 25 years of cultivating relationships amongst the Houston area and a Commercial USA member, is heralded for their reputability in providing and installing top-of-the-line and cost-effective floors for many of the area schools. With materials perfected to handle the moisture, dirt, debris, and foot traffic that comes with our children of the Lone Star state and a crew of devoted installers to make sure each project comes together in time, Floor-Tex has only been expanding their influence into the Greater Houston area.

Enclosed is an example of a recently completed Conroe, Texas elementary school in which 33,000 sq ft of Marmoleum was used in the corridors. (See photos)

Stephanie House of Floor-Tex said, "They have enjoyed being a part of Commercial USA and the benefits that they receive including deep showroom and material investments, and the loyalty incentives that are paid twice a year. But above all else, the comradeship that comes with being a part of the group serves as the biggest benefit. Just how Floor-Tex provides and assists its community, we with Commercial USA look forward to always offering them a helping hand."
